1. 1 – on the piece of 3-3/4 x 5 card stock (card front), rub it all over with the Embossing Buddy to remove anything sticky.

2 – Use the VersaMark Ink pad to stamp the background image twice.

**TIP** – VersaMark Ink is a special ink that temporarily holds the embossing powder on your card stock allowing time for you to heat set it permanently.

3. 3 – Cover the stamped image with embossing powder.

**TIP** – Embossing powder comes in little tiny jars, I have poured three of them into my Zip Lock Container to give me a larger working space when I emboss.

4 – Shake the excess embossing powder back into the container.

5.

6.

5 – Use the heat tool to permanently (melt), and attach the embossing powder to the card stock.

**TIP** – you know it's "cooked" when it turns from dull gray to shiny white.

6 – Repeat these steps on the piece of 2-1/4 x 4 card stock -

7.

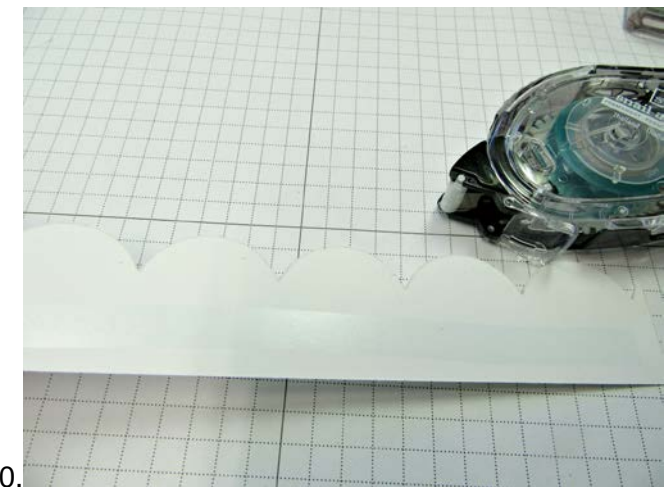

8.

7 – Use the coordinating Stampin Write Marker to colour in the outlined flowers on the second embossed piece.

8 – Use the heart framelit from the Wood Crate Framelits set to die cut three hearts.

9.

10.

- 9 – Use the Scalloped Framelit from the Seasonal Layers set to die cut the long piece of white cardstock.  
10 – Run Snail Adhesive or Fast Fuse along the back of the scalloped piece.

11. 12.  
11 – Mark either side of your grid paper where you wish to attach the scalloped piece to ensure it's straight.  
12 – Lay it down on the card front ensuring you have three scallops centered on the card front. Turn the piece over and trim the scalloped piece to the edge of the card front.

13. 14.  
13 – Attach a piece of Tear and Tape to the front of the card front, on the scalloped piece,  
14 – Bringing the ends to the back about an inch.

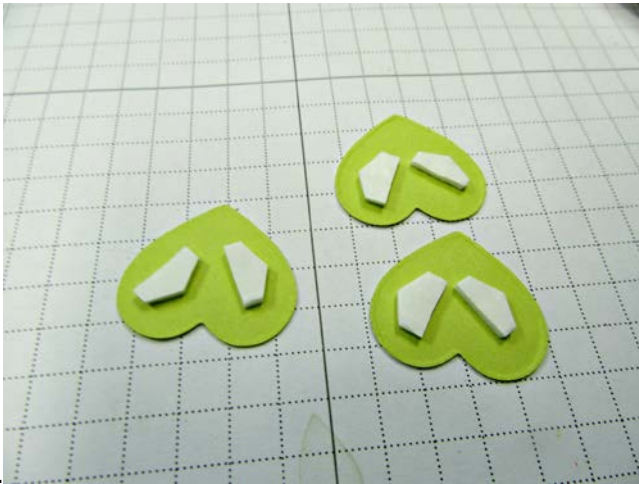

15.

16.

15 – Remove the protective cover from the Tear and Tape and lay the Burlap Ribbon over it to secure it.  
**TIP** – as we are going to be attaching the hearts to the ribbon, we have to ensure the ribbon is secure.  
 16 – Add more Tear and Tape to the back of the card front before securing it to the card base.

17.

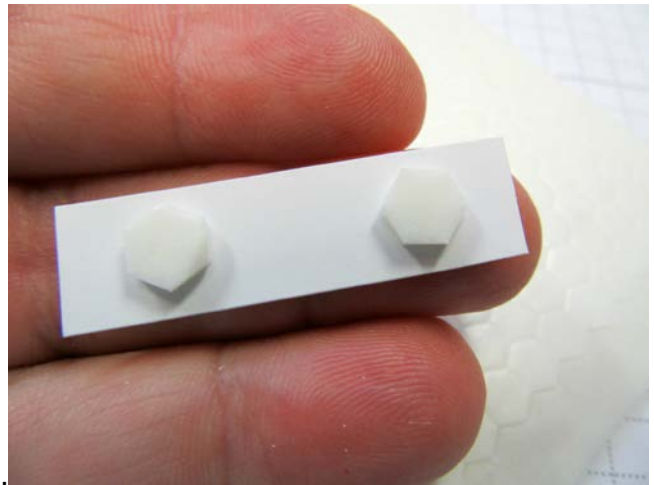

18.

17 – Add Dimensionals to the back of the three die cut hearts.  
 18 – Secure the hearts to the card front centering each one to the scallops.

19.

20.

19 – Stamp the sentiment in Crumb Cake onto the remaining 1 x 2 piece of whisper white card stock.  
 20 – Attach the sentiment to the back of the hearts using dimensionals.

20 – Use your snips to trim it to within 1/8” all around the sentiment and add a couple of Mini Dimensionals to the back.

21. 21 – Attach the sentiment to the card front on the right just above the band. Add a drop of multi - purpose glue and attach a small bow created with the Linen Thread.  
22 – Clean the stamps with the Stampin Scrub and Mist.
